b.Storage Network

The LUVI Storage Network is a decentralized storage network. LUVI is a nodes that can be identified and do not require a separate blockchain.

Our plan is the future where LUVI can be accepted to make digital payments globally at large storage companies through revolutionizing payments for data storage internationally. By using LUVI you don't need to spend a lot of time in vain. Because LUVI has made it

easy for you to find the best storage of all time with the best price ever.
